

# Shipyard Tour Brochure Wajer Jachtbouw

Excellence through Dutch passion!

# Introduction

The Wajer Jachtbouw boatyard is renown for its Kapiteinsloep, Zeelander and Wajer Osprey 37. Wajer Jachtbouw produces exclusive ships of a quality unrivalled in its class.

# Philosophy

Every yacht produced under commission at Wajer's boatyard is designed according to one overarching philosophy: Wajer never makes any compromises in terms of materials and quality. This philosophy is paramount to our organization and is the characteristic for which Wajer Jachtbouw is most praised by its clientele.

# The Wajer Jachtbouw Story

# De Kapiteinsloop

Wajer started building the modified "Kapiteinsloop" in 1992.

As of 2009 more than 300 ships have been delivered to their proud owners.

# The 1920s

The classic lines of the hull of the launch are based on an English Captain's launch from the 1920s. These boats looked absolutely beautiful and their seaworthiness is legendary.

# Wajer Osprey

The Osprey is borne in 2002 during an effective cooperation between Vripack International Naval Architects, Volvo Penta Sweden and Wajer.

# Zeelander

Styling of the Zeelander was done by award-winning designer Cor D. Rover, whose ability to bring the freshest yet most timeless designs makes him one of the field's most unique yacht designers.

The entire building of the unique vessel is done at the Wajer Jachtbouw Shipyard which allows Wajer's clientele to address their personal style with lots of precision

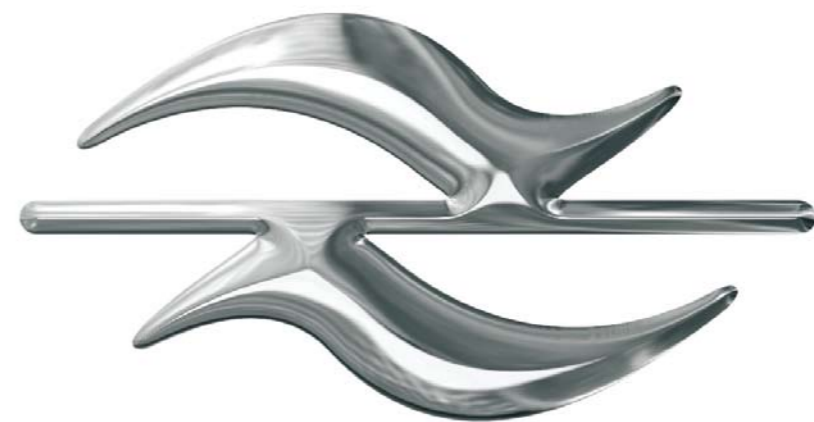

ZEELANDER

# Endless capabilities

Zeelander is no fair weather sailor, capable as she is of covering extremely long distances. Her specially designed and proven hull allow her to handle seas no other yacht in her class could consider.

ZEELANDER
